Walt Disney himself the founder of the company. He always said he want to make it affordable so all families can go for Disney . Now it is completely different it's all about the money it is absolutely terrible what they become. Hopefully karma will intervene The parks used to be open until 12:30 1:00am now they close earlier the only way to get the additional time at night you have to pay for a deluxe resort. What's the point of paying for deluxe resort my whole family and I stay in the park from open to close we're not in the room most of the time I'm not saying I cannot afford a deluxe resort. The point I am trying to make is as long as you're staying on property what the hell is the difference and it should be available to all guest. We were supposed to return June 18 of 2023 rather go to Universal Studios. Apparently my money is no good here I'm a huge Disney fan but now not so much.

Disney is no longer a place of joy. It has joined the rest of the corporate greed. The new lightning lane is just another way to grab money. I didn't mind the old fast pass system, it was easy and made the park more enjoyable. Everything about the new system is just about taking your money. Now you pay \$100 to get in, \$25 to park your car, and all that gets you is at least an hour wait for any decent ride. If you don't want to wait, then shell out more money for every ride. Most of the staff just stand around talking to other staff. They are not friendly and don't care about visitors. If you talk to most of them, they act like you are bothering them. Walt would be very disappointed. Not only that, but much of their tech is in need of upgrading. Walt was always about the newest technology, but the new Disney doesn't seem to care. I see old analog devices everywhere I look. Old analog intercom systems that you can't even understand what they are announcing. The shows I saw in Epcot are not even digital, old low definition grainy film. It is quite sad. In the past, the park was well maintained and clean. Not anymore. I saw old gum and stains everywhere on the pavement. Paint that was chipped off on manv rides. The whole experience was very

The old Disney brand is fading  
and the New Disney+ is  
trending  
The expectation is now  
coming from a more mature  
audience

The disks all work fine but the case wasn't in great shape and none of the artwork, which I expected in a collector edition, were included. Slightly disappointed
